2012

[ICIAS2012](#)

DATE: 12 - 14 JUNE 2012

VENUE: Kuala Lumpur Convention Center, Kuala Lumpur

The Electrical and Electronics Engineering Department of Universiti Teknologi PETRONAS (UTP) is proud to organize the 4th International Conference on Intelligent & Advanced Systems (ICIAS2012) from 12th to 14th June, 2012. This conference is the continuation of ICIAS2010 which was successfully held at the premier Kuala Lumpur Convention Centre (KLCC); the same conducive venue will host our upcoming ICIAS2012 conference. The theme of the conference is "Emerging Technologies for Sustainable Solutions". The conference is technically co-sponsored by the IEEE Malaysia Signal Processing Society and the IEEE Malaysia Circuits & Systems Society.

[SCORED201 1](#)

DATE: 19 - 20 DECEMBER 2011

VENUE: □ CYBERJAYA COMMUNITY CLUB, CYBERJAYA, SELANGOR

The IEEE Student Conference On Research and Development (SCORED) is the flagship student conference of the IEEE Malaysia Section. It is an annual conference hosted among the IEEE members affiliated to Institutes of Higher Learning in Malaysia. The 2011 SCORED was organized by the IEEE MMU Student Branch. IEEE Signal Processing Society Malaysia is one of the technical co-sponsors of the conference.

The International Conference on Signal and Image Processing Applications (ICSIPA), organized by the IEEE Signal Processing Society of Malaysia Section provides a forum for the researchers and engineers from academia and industry to discuss and present the latest technological advances and research results in the fields of theoretical, experimental, and application of signal, image and video processing. ICSIPA 2011 is the second in the series and was held at Hotel Maya in Kuala Lumpur, the capital of Malaysia. The conference aims to bring together engineers and scientists in signal, image and video processing locally and internationally for a better cohesion and collaboration in the fields of mutual interest. A total of 223 papers were submitted to ICSIPA 2011, out of which 110 papers were accepted and presented in 24 sessions over three days. IEEE Signal Processing Society Malaysia Chapter looks forward to host the third ICSIPA conference in 2013.

2010

[SITIS2010](#)

DATE: 15 - 18 december, 2010

VENUE: impiana klcc hotel & spa, KUALA LUMPUR

The SITIS conference is dedicated to research on the technologies used to represent, share and process information in various forms, ranging from signal, image, and multimedia data to traditional structured data and semi-structured data found in the web. SITIS spans two inter-related research domains that increasingly play a key role in connecting systems across network centric environments to allow distributed computing and information sharing.

SITIS 2010 aims to provide a forum for high quality presentations on research activities centered on three main tracks. The focus of the first track “Internet-Based Computing and Systems” (IBCS) focuses on emerging and novel concepts, architectures and methodologies for information management. The Internet and the related technologies have created an interconnected world in which information can be exchanged easily, tasks can be processed collaboratively, communities of users with similarly interests can be formed to achieve efficiency and improve performance. The second track titled “Signal & Image Technologies” (SIT) focuses on recent developments in digital signal processing and pays particular attention to evolutions in audiovisual signal processing, analysis, coding and authentication, and retrieval techniques.

The IEEE Student Conference On Research and Development is the flagship student conference of the IEEE Malaysia Section. It is an annual conference hosted among the IEEE members affiliated to Institutes of Higher Learning in Malaysia.

Universiti Tenaga Nasional is a private research university located next to Putrajaya, Malaysia. UNITEN has five colleges containing 15 academic departments offering engineering, information technology, business management programs and related areas. The College of Engineering here has organized numerous conferences both locally and internationally recognized. For 2010, IEEE Members in Universiti Tenaga Nasional (UNITEN) volunteer to work with the Section to host the event and pledge to make it a regionally successful student conference.

Monday, 01 February 2010 03:14 - Last Updated Wednesday, 19 December 2012 04:19

The International Conference on Information Sciences, Signal Processing and their Applications (ISSPA) 2010 is the tenth event in the series of conferences, which since 1985 has brought together leading researchers and practitioners from academia and industry engaged in research and development related to signal processing theory and applications. In 2007, ISSPA extended its coverage to include the complementary field of Information Sciences.

ISSPA 2010 is co-organized by the Faculty of Biomedical & Health Science Engineering and Faculty of Electrical Engineering, Universiti Teknologi Malaysia(UTM) in cooperation with University Malaya (UM), Universiti Malaysia Perlis(UniMAP), MIMOS Berhad and with the support of several other bodies and international universities around the world including the University of Queensland, Australia, University Paris tech(ENST), University of Paris 12&13, Qatar university and KFUPM, KSA.

[IWAIT2010](#)

Dates: 11 - 12 January 2010

Venue: Renaissance Hotel, Kuala Lumpur.

The International Workshop on Advanced Image Technology (IWAIT) is the well-known international workshop that gathers researchers, professors, students and interested persons in the field of advanced image technology. This workshop has been annually held in Eastern and South Eastern Asian countries such as Japan, Korea, Singapore, Taiwan, Hong Kong, and Thailand since 1998. This year, the International Workshop on Advanced Image Technology

2010 (IWAIT 2010) will be held in capital city of Malaysia, Kuala Lumpur on 11-12 January 2010. The conference was organized by Multimedia Univeristy, with IEEE Signal Processing Society Malaysia as cooperative sponsor.

2009

ICSIPA09

Dates: 18 – 19 November 2009

Venue: Cititel Hotel, Mid Valley, Kuala Lumpur.

The first IEEE International Conference on Signal and Image Processing Applications (ICSIPA09), initiated and organized by IEEE Signal Processing Society Malaysia, was held in Kuala Lumpur, Malaysia, November 18 -19, 2009. Over one hundred delegates participated in the inaugural conference. Kuala Lumpur is a vibrant city situated in the heart of peninsular Malaysia surrounded by scenic mountains with tropical weather suitable for vacation. The conference venue, the Cititel Hotel, was strategically located at the city centre adjacent to the Mid Valley Megamall facilitating convenience and comfortable stay to the international delegates.

A total of 241 papers were submitted to ICSIPA 2009, out of which 105 papers were accepted and presented in 21 sessions over two days. There were 48 papers from Malaysia and 57 papers from overseas which highlights the paper acceptance rate of 43.6% for the first ICSIPA

conference. The majority papers and participation from international delegates shows the success of the ICSIPA09 and the hard work of young and vibrant IEEE Signal Processing Society Malaysia Chapter. IEEE Signal Processing Society Malaysia Chapter looks forward to host the second ICSIPA conference in 2011.

2008

CITISIA08

Dates: 12 - 13 July 2008

Venue: Multimedia University, Malaysia.

The Conference on Innovative Technologies in Intelligent Systems and Industrial Applications 2008 (CITISIA2008) was organized by IEEE MMU Student Chapter, and was held at the Multimedia University in Cyberjaya, Selangor. The conference was sponsored by IEEE Signal Processing Society Malaysia.
