

2011

IEEE ICSIPA LOGO DESIGN COMPETITION

ICSIPA is an international conference focusing on the latest technological advances and research results in the fields of signal, image and video processing, organized bi-annually by the IEEE Signal Processing Society Malaysia chapter. To come up with an official logo for the conference, the chapter organized an IEEE ICSIPA Logo Design Competition in 2011.

In total there were 12 logo entries, and the winner and runners-up selected by the committee are as follows:

Winner:

Designer : Asif Iqbal

University : Universiti Teknologi Petronas (UTP)
